**MEMORANDUM FOR THE RECORD**

**SUBJECT: Telecon with Colonel Kemp Regarding  
Far Eastern Photography**

1. Colonel Kemp was advised that our representatives at URPIC Y, [ ] had reported some concern relative to the storage, cataloging and possible future use of the two TALENT missions which were flown last year. It was suggested to Colonel Kemp that if the field requirements had been satisfied, or as soon as they were satisfied, it may be wise to order the destruction of the material as a safeguard against possible misuse in the future. It was affirmed that this was no criticism of the operation at [ ] the situation being one governed by the field conditions. Colonel Kemp agreed that the suggestion was a good one and indicated that he would explore the matter with the field.

2. Colonel Kemp then reported that there had been <sup>dis</sup>satisfaction over the length of time between the execution of the [ ] and the receipt of material in Washington. Previously Major Coursey had affirmed that this material was henceforth to be received more expeditiously and directly by AFCIN and that we would be informed immediately so that we could produce a high quality duplicate for the Center's needs. Colonel Kemp enlarged on this. The present plan is for the material to be treated expeditiously at Taipei, forwarded [ ] where a duplicate will be produced for their use, and the original will then be flown to the Pacific Coast of the United States where SAC will make a quick copy and fly the material to AFCIN. AFCIN will notify us so that we may make a copy. We will return the original to AFCIN who will keep it for thirty days at which time it will be delivered to Colonel Waters, PRSD, for the fulfillment of routine production requirements. It is Colonel Kemp's belief that this will cut down the amount of time appreciably.

[ ]  
Deputy Director  
Photographic Intelligence Center
